Join Us for Trellix Xpand Digital Event

April 27, 2022, at 9 a.m. CT (US Central time)

April 27, 2022, at 9 a.m. GMT (London time)

April 28, 2022, at 2 p.m. AEST (Sydney time)

You're invited to the first of many upcoming Trellix Xpand events! Spend a short time with the leaders and visionaries at Trellix. See how their vision for living security will transform the way you detect, respond to, and remediate threats.

Join your peers. Explore the solutions and innovations that are shaping the future of cybersecurity. Learn how you and your team can work more effectively and efficiently.

Featured Speakers

Bryan Palma
Chief Executive Officer, Trellix

"Our XDR ecosystem allows organizations to bring security to life, empowering organizations to stay one step ahead of attacks."

Bryan devotes himself to helping the world's greatest companies leverage innovative technology to transform their business and customer experience. Before stepping into the role of CEO, Bryan was EVP of FireEye's Product Division and led the sale to Symphony Technology Group. Subsequently, he led the integration and rebranding of McAfee Enterprise and FireEye to form Trellix. He has also served as BlackBerry's President and COO, Cisco's SVP and GM of Americas Customer Experience, Boeing's VP of Cyber and Security Solutions, PepsiCo's first CISO, and as an agent in the U.S. Secret Service. Bryan is a member of the Board of Directors for TPX Communications.

Adam Philpott
Chief Revenue Officer, Trellix

Adam focuses on helping create customer value at scale and building trusted partnerships with clients and channel partners. He brings a long history of developing best-in-class teams, global sales leadership, cultivating culture, and accelerating growth. Prior to Trellix, Adam was President of Global Sales for McAfee Enterprise and led McAfee EMEA's business as an SVP. He has also held sales roles spanning EMEA and the broader APJ region at Cisco and Ingram Micro.

Aparna Rayasam
Chief Product Officer, Trellix

Aparna guides the team responsible for the development and strategy of Trellix's XDR ecosystem and leads Trellix Threat Labs. A recognized leader in the application security and enterprise software industries, Aparna has 20+ years of experience at industry leaders—Akamai, Oracle, and Adobe—where she steered the evolution of products and R&D, architected new market categories in security, managed large acquisition and integration efforts, and led cross-functional engineering and product teams.

Sean Morton
VP, Strategy, Trellix

Sean runs tactical and transformation strategy programs with a unique perspective that encompasses technology, strategy, and design. Since holding several leadership roles in Engineering, UX, Product, Partnerships, and Marketing for companies like GE and FireEye, Sean has become a champion for creating incredible experiences for customers, partners, and employees.

Rob Labbé
Director, Information Security, Teck Resources Limited

Rob enables the digital transformation for an organization concerned about the security of their manufacturing and industrial networks. With over 20 years of success across the IT security industry, he is an expert in risk management, building diverse cybersecurity teams, vendor management, training, and professional development. In addition to Teck Resources Limited, Rob has also held leadership positions with Mining and Metals Information Sharing and Analysis Center, Microsoft, and Fidelis IT Inc.
