

# Database Security Essentials

## Self-Paced Online Training

### Highlights

#### Duration

4 hours

#### Prerequisites

- Microsoft Windows operating system
- System administration
- Basic understanding of database concepts

#### Who Should Attend

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with network and system security.

#### How to Register

This course is available for purchase at <https://trellix-training.netexam.com>

This course introduces the basic features, configuration, maintenance, and installation techniques available for Trellix Database Security (DBS). Additionally, the resources and videos available in the course are packaged for use individually so that they can be referenced later.

### Learning Objectives

After completing this course, learners should be able to:

- Explain Database Security Suite
- Describe the key features of Database Security Suite
- List the steps in the installation of Database Security Suite
- Describe the functions of Database Security Suite
- Explain Database Security Insights
- Describe Troubleshooting logs and Maintenance for DBS

### Agenda at a Glance
