

Endpoint Security Essentials -Deployment Self-Paced Online Training

Highlights

Duration

1-hour

Who Should Attend

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with system endpoint security.

Prerequisites

Students taking this course should have a working knowledge of Windows operating systems, system administration, and network technologies. Basic understanding of computer security, command line syntax, malware/anti-malware, virus/ anti-virus, and web technologies is recommended. Prior experience or working knowledge of ePolicy Orchestrator is also required.

How to Register

This course is available for purchase at https://trellix-training.netexam.com

This course provides a comprehensive overview on installing the Trellix Endpoint Security (ENS) packages and extensions on the ePolicy Orchestrator and deploying the ENS client to the endpoint systems in your environment. Endpoint Security combines the Threat Prevention, Adaptive Threat Protection, Firewall, and Web Control modules to take immediate action against potentially dangerous applications, downloads, websites, and files. This course is designed as a practical starting point for someone who is new to deploying Endpoint Security.

Learning Objectives

- Install the required software packages and extensions on ePolicy Orchestrator.
- Deploy the ENS client to ePO managed endpoint systems.

Agenda at a Glance

- 1. Introduction
- 2. Installing the ENS Packages and Extensions
- 3. Deploying the ENS Client to the Endpoint Systems
- 4. Conclusion
