

ePolicy Orchestrator – On-prem Essentials

Self-Paced Online Training

Highlights

Duration

6-hours

Who Should Attend

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with network and system security.

Prerequisites

Students taking this course should have a working knowledge of Windows operating systems, system administration, and network technologies. Basic understanding of computer security and internet services is also recommended.

How to Register

This course is available for purchase at <https://trellix-training.netexam.com>

This course provides an overview of the Trellix ePolicy Orchestrator (ePO) – On-prem product, key features, purpose, and benefits. You will also learn how to install, configure, operate, and troubleshoot issues relating to ePO – On-prem.

Learning Objectives

- Describe ePO and the Trellix Agent
- Install and upgrade ePO
- Deploy and configure products to endpoints
- Configure the ePO server
- Create and manage policies and rules
- Manage ePO user accounts and permission sets
- Create and interpret dashboards, queries, and reports
- Describe the Disaster Recovery feature and how it works
- Explain how to perform basic troubleshooting on ePO
