

# Intelligent Virtual Execution - Server Essentials: Deployment

## Self-Paced Online Training

### Highlights

#### Duration

1 hour

#### Prerequisites

Students taking this course should have a working knowledge of Windows operating systems, system administration, and network technologies. Basic understanding of computer security and virus/anti-virus technologies is recommended.

#### How to Register

This course is available for purchase at <https://training-catalog.trellix.com/>.

This entry-level course provides a comprehensive overview on Trellix® Intelligent Virtual Execution - Server (IVX - Server) deployment, including Dynamic Threat Intelligence (DTI) services, upgrading appliances and how to backup and restore appliance databases.

### Learning Objectives

After completing this course, learners should be able to:

- Explain licensing and DTI services for IVX - Server core appliances
- Backup and restore IVX - Server databases
- Upgrade IVX - Server managed appliances

### Who Should Attend

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with network and system security.

### Course Outline

- Introduction
- IVX Licensing and Dynamic Threat Intelligence
- IVX Backup and Restore
- Upgrading IVX Appliances
- Conclusion
