Trellix EDUCATION SERVICES

Native Drive Encryption On-prem Essentials: Management

Self-Paced Online Training

Highlights

Duration

1 hour

Prerequisites

Students taking this course should have a working knowledge of Microsoft Windows administration, system administration concepts, and a basic understanding of computer security and internet services. It is also necessary to have prior experience using Windows CLI commands and ePolicy Orchestrator.

How to Register

Here is the Academy Course link. Click Enroll to sign up.

This course covers essential components of managing Trellix Native Drive Encryption (TNE) using queries as dashboard monitors. You will learn to view and customize dashboards, create custom queries, track client events, import recovery keys via command-line, perform system recovery with Trellix ePO and DPSSP, and implement key rotation for data security.

Learning Objectives

After completing this course, learners should be able to:

- Create a custom TNE dashboard query to monitor encryption status
- Import the recovery key from a client system using command-line
- Perform system recovery using Trellix ePO - On-prem and DPSSP
- Rotate recovery keys

Who Should Attend

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with network and system security.

Course Outline

1. Introduction
2. Queries and Dashboard Monitors
3. Viewing Trellix Native Drive Encryption Reports
4. Creating Custom Queries in Trellix Native Drive Encryption
5. Utilizing Dashboards in Trellix
6. System Recovery and Recovery Key Management
7. Summary
