

## DATA SHEET

# Staff Augmentation

Expertise on Demand. Outcomes without Overhead

## Delivery Approach

Our process begins with a discovery session to understand your business drivers, capability gaps, and timeline. We then match vetted professionals from our global talent network and integrate them seamlessly into your environment—on-site, remote, or hybrid.

## Key Deliverables

- Rapid access to experienced security talent
- Avoid recruitment delays and overhead costs
- Maintain agility without increasing headcount
- Ensure continuity and compliance in critical projects
- Gain fresh perspective from external experts

## Methodology

We follow a structured placement methodology: scope → match → integrate → monitor. Our oversight ensures personnel deliver measurable value, knowledge transfer, and alignment with your internal teams and long-term strategy.

## Overview

Our Trellix Guardians agnostic cybersecurity staff augmentation service provides organizations with highly qualified, vendor-neutral professionals across advisory, engineering, and operational roles. Whether you're scaling security operations, responding to regulatory demands, or advancing security maturity, we place the right people in the right roles—fast and flexibly.

## When to Use this Service?

Engage us when scaling or restructuring your security program, recovering from an incident, preparing for audits, launching cloud initiatives, or needing to backfill roles during transitions or long-term leave. We align our experts with your timeline, location, and regulatory landscape.

## Why Trellix Guardians

- We are not just a staffing provider—we are a cybersecurity advisory partner. Our team has deep-rooted experience across threat intelligence, governance, architecture, and operations, enabling us to understand your needs beyond job titles. Our placements are outcome-focused, context-aware, and strategically aligned with your security objectives.
