

The Platform CISOs Trust

Trellix Lightning Talks Schedule

Sit in on 20-minute talks by Trellix and Skyhigh experts at Booth M08 to see how we are helping organizations on their cyber resilience journey.

*Lightning talk schedule may change. Refer to the onsite program for the latest updates.

October 21, Tuesday

Time	Topic
10:00 AM	Better Together: Trellix and Cyberuptive Discover how Trellix and Cyberuptive are empowering SOC teams to streamline SecOps operations, accelerate response to emerging threats, and strengthen defenses with Threat Intelligence powered by Trellix XDR.
10:30 AM	Trellix SecOps: AI-powered SecOps to accelerate investigation and response See how Trellix SecOps empowers security teams with hyperautomation—connecting tools, data, and workflows for faster detection and response.
11:00 AM	Trellix NDR: Seeing the Unseen in Your Network Discover how Trellix NDR delivers visibility into encrypted traffic and uncovers stealthy attacks to stop threats before they spread.
11:30 AM	Safeguarding the OT sector with Trellix Understand how Trellix secures complex, interconnected OT environments with integrated threat detection and operational resilience.
12:00 PM	Better Together: Trellix and AWS Hear how Trellix, an AWS Advanced Technology Partner with AWS Security Competency, works closely with AWS to deliver solutions for securing customer's environments.
12:30 PM	Trellix Wise: AI Security for the Future Find out how Trellix Wise leverages Generative AI to support your security teams to act with confidence and resolve threats efficiently.
01:00 PM	Enterprise Cloud Data Protection with Skyhigh Security Skyhigh Security delivers intelligent data protection for hybrid environments, making it ideal for government and regulated sectors. With SSE everywhere, enterprise-grade AI security, and deep contextualized threat protection, agencies can safeguard sensitive data across cloud, web, and on-prem systems while ensuring compliance and operational resilience.

01:30 PM	Trellix Lucky Draw Winner Announcement
02:00 PM	Safeguarding the OT sector with Trellix Understand how Trellix secures complex, interconnected OT environments with integrated threat detection and operational resilience.
02:30 PM	Threat Intelligence: Turn Data into Defense Dive into the threat landscape and how to transform raw threat intelligence into actionable insights to help you outpace adversaries.
