- 2.1 We confirm that we have in place and regularly test business contingency and business continuity plans.

3. Digital Operational Resilience Testing

- 3.1 We will conduct regular testing of our resilience measures, including penetration testing, vulnerability assessments, and other controls. Upon Your written request, we will make available certain third-party security testing reports, which will enable You to rely on Our security practices and address Your requirements for security testing and TLPT. Because customer-led TLPT may have an adverse impact on the quality or security of the services that We provide to Our other customers, if You require additional TLPT to comply with the requirements of DORA, we will participate and cooperate with such testing by engaging an external tester to perform pooled testing in accordance with DORA Article 26(4).
- 3.2 Subject to Our discretion and notwithstanding to the foregoing, We may offer customized TLPT under the terms and conditions and in consideration of the fees set forth in a Statement of Work duly executed between the Parties.

 - 4.2.1 provide copies of documentation We hold; and

- 4.3 In addition to the foregoing, solely to the extent required by Applicable Laws or a binding request by a regulatory body, You may perform an audit of Our systems and controls related to the delivery of the purchased Products and Services. If a third-party is to conduct the audit, the third-party must

not be a competitor to Trellix, and such third-party is subject to our prior assent, and must execute a written confidentiality agreement with the Parties before conducting the audit.

- 4.4 To request an audit, You must submit a detailed audit plan at least two (2) months in advance of the proposed audit date to Us, which plan describes the proposed scope, duration, and start date of the audit. We will review the audit plan and provide You with any concerns or questions (for example, any request for information that could compromise the Company's security, privacy, employment, or other relevant policies; or any concerns or questions about the proposed third-party auditor). Both Parties will work cooperatively in good faith to agree on a final audit plan. If the requested audit scope is addressed in a similar audit report within the prior twelve months and We confirm there are no material changes in the controls audited, You agree to accept those findings in lieu of requesting an audit of the controls covered by the report.
- 4.5 The audit must be conducted during regular business hours at the applicable facility and may not interfere with business activities or with Our confidentiality obligations to other customers.
- 4.6 You will provide Us with any audit reports generated in connection with any audit under this section, unless prohibited by Applicable Law. Any request for Us to provide assistance with an audit is considered a separate service if such audit assistance requires the use of resources different from, or in addition to, those required for the provision of the Products and Services. We will seek Your written approval to pay any applicable fees before performing such audit assistance.

- 5.2 In the event that You require transition or exit assistance services upon the termination or expiry of the Agreement, We agree to provide such services provided that the scope, duration and nature of the services is commercially reasonable and is agreed in writing between You and Us and You pay Our fees for the provision of those services.
