

# Management of Native Encryption on MVISION ePolicy Orchestrator Essentials

Education Services eLearning course

## Introduction

Through E-Learning and demonstrations, you will learn about the functionality, key features, migration and client deployment, configuration and use, and basic troubleshooting of Management of Native Encryption (MNE) on MVISION ePO.

### Course Goals

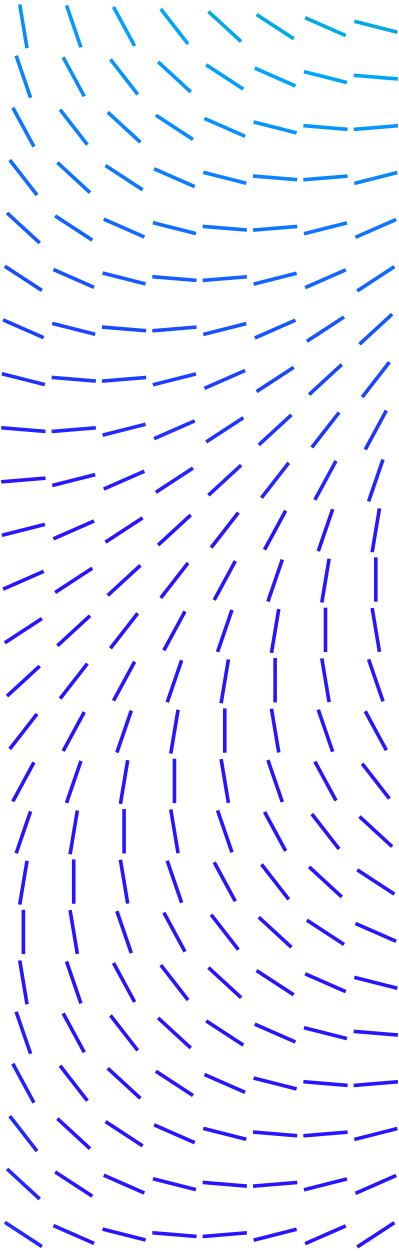

- Describe MNE on MVISION ePO key features, benefits, and functionality.
- Examine MNE on MVISION ePO components and how they interact to enhance network systems security.
- Explain how to access MNE on MVISION ePO.
- Identify MNE on MVISION ePO system requirements.

## DATASHEET

### Recommended Pre-Work

- Networking and system administration concepts
- Basic understanding of computer security concepts
- Working knowledge of MVISION ePO

- Explain the process for migrating MNE from on-premises ePO to MVISION ePO.
- Explain how to deploy the MNE client using MVISION ePO.
- Explain configuration and usage of MNE on MVISION ePO.
- Understand basic troubleshooting tasks for MNE on MVISION ePO.

### Agenda At A Glance

**3 hours**

This course has the following modules. Each Module is a combination of instructional material, videos, and links. Please complete each module. Also refer to all the documentation of this product. (Product Guide, Installation Guide, and Release Notes from Product Documentation Portal).

- Product Overview
- Installing MNE on MVISION ePO
- Configuring and Using MNE on MVISION ePO
- MNE on MVISION ePO Reporting
- Basic Troubleshooting
- Summary
- Course Exam
