

## McAfee vPatch Security Update

### McAfee vPatch Security Update 98

This McAfee vPatch Security Update follows a major vendor update:

- Enable pre-selected vPatch rules for Oracle Database 19c.

In order to use vPatch rules relating to Oracle Database 19c, McAfee Database Security Server version 4.8.2 or higher is required.

The current update is cumulative and includes the content of all previously released vPatch updates. Previous release notes can be found [here](#).
